SANTA SUSANA FIELD LABORATORY (SSFL) – DECEMBER 11, 2006 REQUEST FOR ELECTRONIC DOCUMENTS

Dear Ms. Crawford and Mr. Perryman:

Thank you for your recent letter, which I received on December 15, 2006. The Department of Toxic Substances Control (DTSC) intends to make available to you all electronic SSFL documents that DTSC receives on or after mid-December 2006 from Boeing, the National Aeronautics and Space Administration, and the Department of Energy. We will also make available any outgoing DTSC correspondence to these same entities dated on or after mid-December 2006.

As you may be aware, DTSC has been posting SSFL documents on the DTSC website and has required Boeing to submit all documents electronically. We also recently sent you and other community members a copy of the Area IV Resource Conservation and Recovery Act (RCRA) Facility Investigation Report on CD so that you will have an early copy before we begin a formal public comment period in early 2007. We are also evaluating the establishment of a specific SSFL website that could be accessed from our DTSC website, thus making it easier for everyone to locate documents.

In the interim, I asked Larry Woodson of our Public Participation Program, to discuss with you specific procedures to ensure your information needs are fully met in a timely manner. In his phone conversation with Mr. Perryman on January 3, 2007, he discussed procedures which include specific notification to Rocketdyne Watch when new documents on SSFL are available. For very large documents which may be difficult to download, we are willing to provide them to you on CD.

We will keep you informed of our progress on establishing a website solely dedicated to SSFL. Thank you for your continued interest in the SSFL project. Please contact me at (916) 322-3501 or Ms. Barbara Coler, Chief of the Permitting and Corrective Action Division at (510) 540-3827 if you have questions. You may continue to contact Larry Woodson at (916) 255-3648 regarding specific procedures on document availability.

Sincerely,

Signed by Watson Gin

Watson Gin, P.E.
Deputy Director
Hazardous Waste Management Program

cc: Mr. Arthur Lenox
